

# **BRC VERSION 5 HACCP TRAINING**

## **BRC Global – Food – Version 5 HACCP Requirements**

**The BRC Food Standard has recently been revised.**

The New BRC Standard has many more HACCP requirements than Version 4. Companies will need to review their HACCP plans to meet the Version 5 Standard.

BRC Version 5 Audits commence in July 2008.

IFQC SMART Solutions, the Official BRC Training Body in Ireland is offering **Version 5 HACCP Implementation Training** via Public Courses or via In House Training.

The Version 5 Course allows attendees to review their HACCP within the Context of Version 5 requirements with practical experience of working with HACCP principles. The Course Covers:

- Version 5 HACCP Requirements
- Undertaking a hazard analysis
- Preparing Process Flow charts
- Monitoring Programmes
- CCP Definition, Rationale, Justification and Validation Techniques
- CCP Monitoring, Management and Control Techniques
- Qualitative and Quantitative Measurement Techniques
- Control Point Corrective Action Planning
- HACCP Verification Procedures
- Documentation required

*There is a written examination at the end of the course*

**Two Day BRC Version 5 HACCP Training Cost is  
Stg. £XXX / €880**

Demand for HACCP Training is expected to be high, as the Standard requires Companies to demonstrate competence and experience of specific HACCP training and product knowledge.
